

Gambassi Terme

FI - Toscana

€ 363.000

Old Tuscan farmhouse with lots of potential, located in beautiful settings near Gambassi Terme

Property with great potential, located in the middle of the beautiful countryside between Gambassi Terme and Castelfiorentino, southwest of Florence. The property lies at the end of an enclave of houses, thus guaranteeing plenty of privacy without being isolated. The 260 sqm home is currently divided into two living units that can easily be combined into one. Surrounding the house is a large private garden, with plenty of space for relaxing and enjoying memorable moments with the whole family. Many of the original details have been beautifully preserved - there is thus still beautiful, old terracotta floor tiles and ceiling vaults, in some of the rooms. The property requires a thorough renovation, and has great potential to become a true dream home.
